The first installment of the 2015 Tour series!

I have tickets to the Swarm game at Xcel Energy Center... and since the Tour revolves around me; that is exactly where I am starting and finishing the tour.

Experience has taught me that 35 minutes is too long for the early stops. Therefore, I have changed the stay time to 20 minutes at the first stop and extend it by 3 minutes at each consecutive stop. Flat Earth doesn't have a taproom; therefore we will only spend 20 minutes sampling their beers.

Disclaimer:

There are no maps to hand out and there isn't a sweeper on this ride. I have no idea about possible detours or failures in the Google Maps software, and I certainly don't know my way around the cities - I will follow my iPhone blindly. Invite your friends and remember most taproom beers are more potent than your typical domestic... Plan accordingly.

Scheduling a bike ride that includes and even encourages the consumption of beer would be irresponsible! Therefore, let it be clearly known that I have simply put together a spreadsheet that references where I intend to be, when I plan to get there and when I will depart. I am in no way suggesting or dictating the actions of other responsible adults! I think I've established, and those of you who know me in the least, realize that I do not resemble "responsible" in any stretch of the definition.

Feel free to share and if you have more questions don't hesitate to call, text or email:
