I apologize for the short notice – My computer is toast so I had to wait until I came into work this morning. This trip features a little jaunt out to LTD in Hopkins in the middle. I’ve been there once before, it was scheduled twice... but there was a bit of a mutiny on one of the rides and we never made it that far. I WILL make it to LTD this time!

Disclaimer:

There are no maps to hand out and there isn't a sweeper on this ride. I have no idea about possible detours or failures in the Google Maps software, and I certainly don't know my way around the cities – I will follow my iPhone blindly. Invite your friends and remember most taproom beers are more potent than your typical domestic... Plan accordingly.

Scheduling a bike ride that includes and even encourages the consumption of beer would be irresponsible! Therefore, let it be clearly known that I have simply put together a spreadsheet that references where I intend to be, when I plan to get there and when I will depart. I am in no way suggesting or dictating the actions of other responsible adults! I think I’ve established, and those of you who know me in the least, realize that I do not resemble “responsible” in any stretch of the definition.

Feel free to share and if you have more questions don't hesitate to call, text or email:
